

Good morning SJS parents,

We have our lost and found on the stage today. We are preparing for our gently used uniform event on Tuesday. All gently used clothing will be in the foyer starting this afternoon – feel free to check it out or drop more stuff.

While talking about uniforms, I do have a shift to notify you concerning Lands' End pants and shorts.

Lands' End is making a few alterations to their offerings for school uniforms. This is a direct reaction to eliminating PFAS from all their clothing. Lands' End will eliminate one of the two pants on our website and one of the two shorts on our website for boys and girls. The basic chino pants and shorts will be eliminated, but the blend chino pants and shorts will remain. Lands' End will also add an additional pair of pants and shorts to the website – an active Performance Chino Pants ([click here](#) to see an example, we also have an example in school if you want to check it out.). These new pant and short options are more expensive. I will remind parents that you do NOT have to purchase pants and shorts through Lands' End. The pants and shorts just need to be in dress code - navy blue dress pant (chino style, no flare legs, no skinny jeans/leggings) or -navy blue dress (Bermuda) shorts. These can be purchased at many different places and we have lots in used uniforms.

Our 2024-2025 Uniform Policy will come out later in the spring but I do not anticipate any changes.

Chris
